STAFF & SAFETY

International Camp Suisse is owned and operated by Miss Julie Tyler B.A. (Hons) who developed the summer camp program having previously worked with British and international children in the Swiss Alps in the wintertime. The health, safety and welfare of our campers are of paramount importance and we insist on the highest possible standards of safety in absolutely all areas of our program. Furthermore, we take all our responsibilities very seriously indeed and for this reason have an excellent safety record. We fully appreciate the concerns of group leaders when bringing a group on a residential visit and if you have any questions or concerns regarding safety matters we would be more than happy to discuss them with you. First aid facilities and suitably qualified individuals are available on site, 24 hours a day. In addition, in the event of any medical emergency we have established contact with local doctors, dentists and hospitals, including the nearby specialist children's hospital in Aigle; just 25 minutes away by road.
